

This can be removed so it's not repetitive

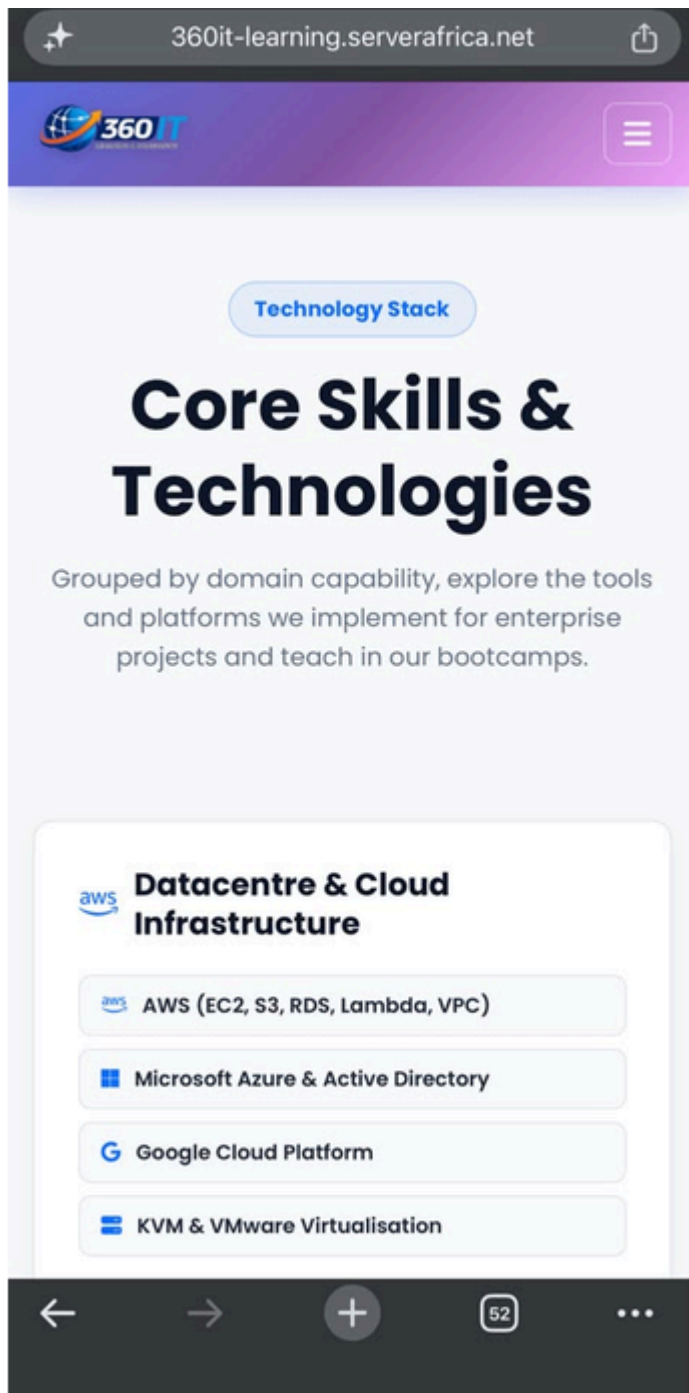

This can be removed

These flash cards can be removed so the website it's not too crowded

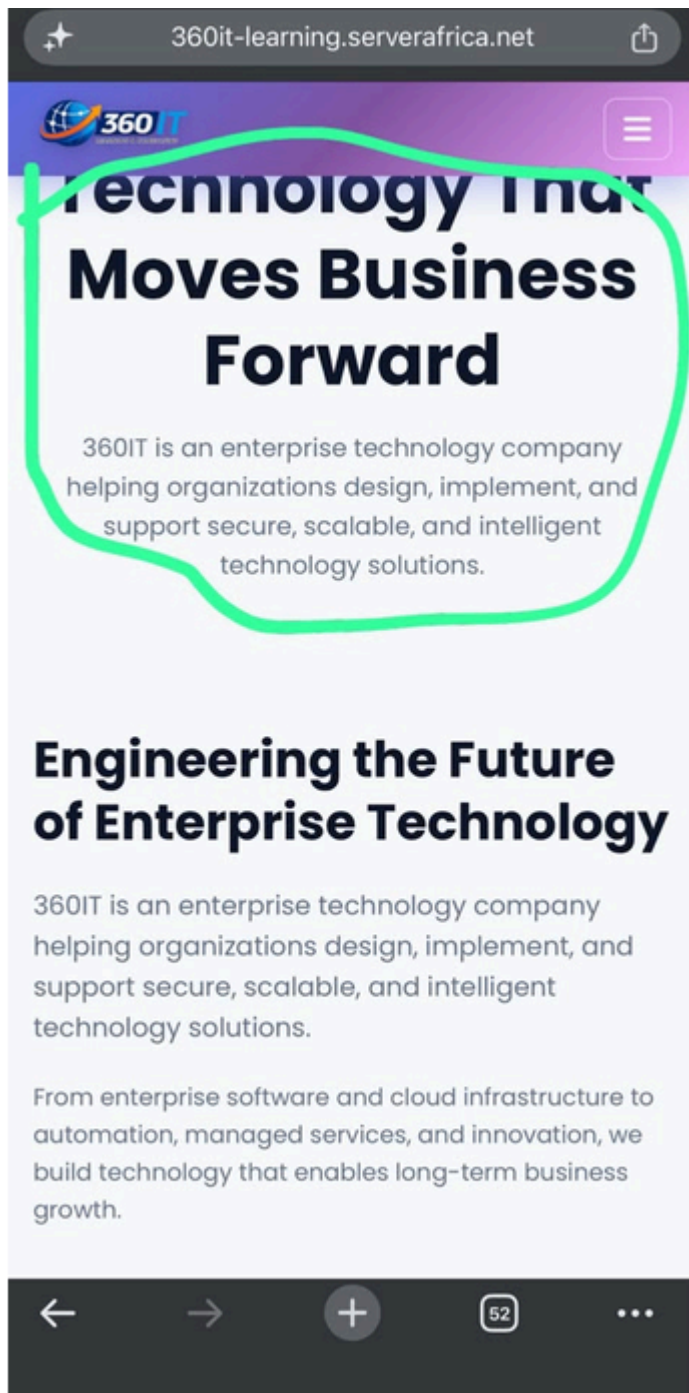

3 reviews should be good on this side

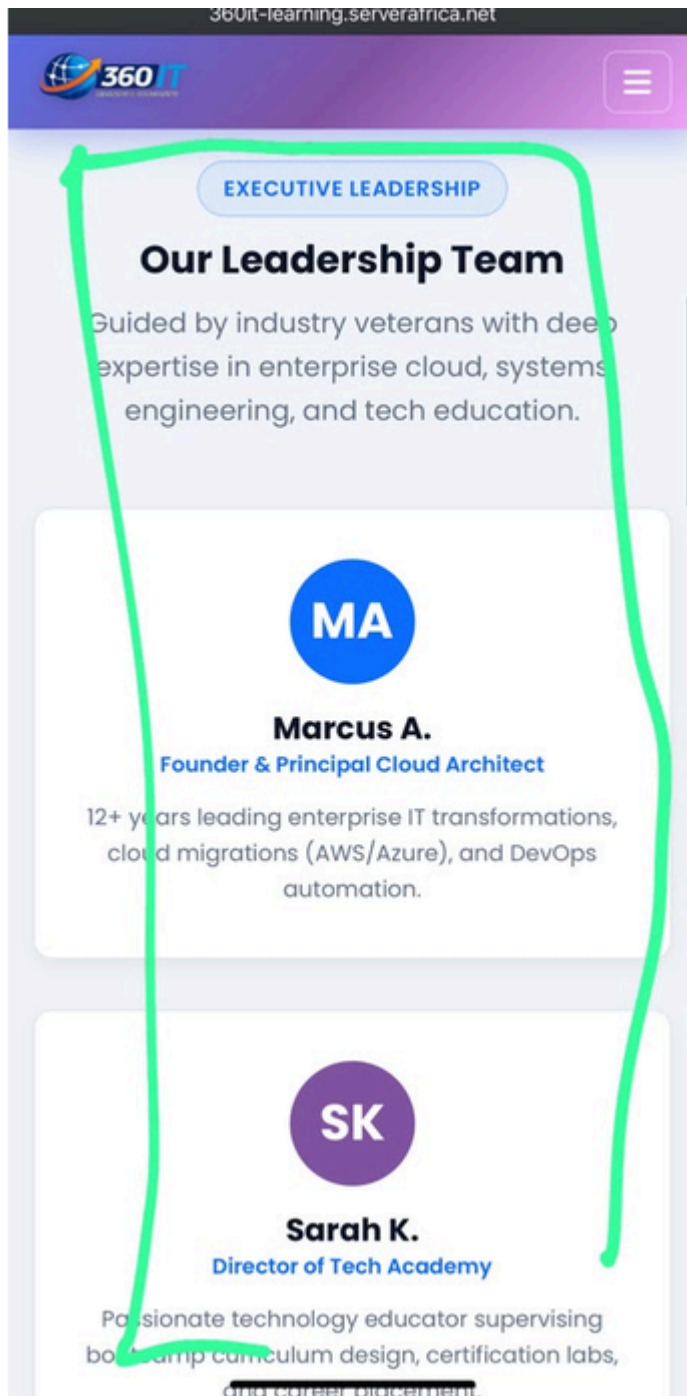

Technology stack can be removed
that entire section can be removed and also the technologies tab that links to it

Corporate overview can be removed

be removed

This section can be hidden for now

will be great if we compress the services to just these 5 so the page is not too crowde

1. Digital Transformation & Enterprise Systems

Modernize operations with ERP, CRM, business applications, workflow automation, systems integration, and data-driven solutions.

2. Cloud, Infrastructure & DevOps

Build secure, scalable, and resilient environments through cloud transformation, infrastructure modernization, DevOps, automation, and data platforms.
